## **CANAL ZONE**

**GRADE & CONDITION:** Three categories are employed for **unused** and three for **used**. "VF" is for very fine or better centered material. The second category is "**FINE**" with the perforations clearing the design in this category. "**S**/**D**" is for stamps with small defects or repairs but of a generally fine appearance. All unused fine and very fine stamps will have original gum and are usually lightly hinged. Those designated with "nh" before the price are never hinged.
